

BROADCAST AND SOUND PICKUP SYSTEM MP10E

TECHNICAL PARAMETERS

Model

MP10E

Weight

≤ 140 g

Host dimension

90*80*82mm

Length of operating pole

610mm

Power

≤15W

Power supply

PSDK_TypeC (12V-17.6V)

Sound pressure of speaker 107dB@1m

The maximum distance for broadcast

150 m

The signal to noise ratio for microphone

67dB

The maximum distance for sound pick-up

10 m

Storage

Machine body memory (ROM): 16 GB

Live stream

8Kbps/16Kbps

Alarm lamp

3 for red light, 3 for blue light, power≤5W, light angle 60°

Working temperature

-10°C~+40°C

csi sound app system supports

Android 7.0 and above and IOS13 and above

The dimension of Bluetooth and handheld microphone

190x60x30mm

The weight of Bluetooth and handheld microphone

≤170g

Display screen

color screen 1.8 inch

Bluetooth

Bluetooth4.2

frequency range2.400-2.4835GHz

Transmit power(EIRP) <10dBm

Battery

Voltage 3.7V, capacity 2600mAh

Endurance

3h

Charge

USB-C, 5V 1A

GRIDX
metering and control

BROADCAST AND SOUND PICKUP SYSTEM MP10E

TECHNICAL PARAMETERS

TWO IN ONE MACHINE

- Two in one for sound pickup and broadcast
- Only weight 140g
- Worry-free battery life

SUPER LOUDSPEAKER

- The combination of midrange speaker and the second horn
- Sound pressure for speaker 107dB@1m
- The maximum distance for broadcast 150m

CLEAR SOUND PICK-UP

- Built-in and array microphone
- Suppress paddle noise
- Enhance human voice

COLOR SCREEN HANDHELD MICROPHONE

- Visual audio switching
- Live broadcasting
- loudspeaker of monitor
