OVERVIEW

When connected to a designated charger, the DJI Mavic 3 100W Battery Charging Hub can expand the charging interface to three. The battery charging hub enhances efficiency by charging batteries in sequence according to their remaining power level, with more fully-charged batteries receiving power first.

HIGHLIGHTS

When connected to a 100W portable charger or car charger, DJI Mavic 3 Battery Charging Hub (100W) can charge up to three batteries in sequence.
