

DJI MATRICE 3D/3TD SERIES CHARGING KIT

GENERAL MATRICE 350 RTK

Discover the DJI Matrice 3D Series charging kit, the essential accessory for maximizing the efficiency of your flight operations. Designed specifically for the Matrice 3D Series intelligent flight battery, this kit lets you charge one battery at a time, ensuring efficient and rapid battery rotation. With a power rating of 100 W and a USB-C connection, it offers fast, secure charging. This charger is suitable for a wide range of conditions, with an optimum charging temperature from 5° to 40°C, guaranteeing reliable performance even in harsh environments. The CP.EN.00000519.02 is not only robust but also incredibly easy to use, making it perfect for professionals on the move.

Increase productivity and minimize downtime with this charging kit, designed to meet the demands of the most demanding users. Never let battery levels interrupt your critical projects. Choose efficiency and reliability with the DJI Matrice 3D Series charging kit.
