

MATRIX LIGHT ML150

TECHNICAL PARAMETERS

Model

ML150

Size

225*39*21mm

Weight

< 200 g

Light angle

30

Control method

High level DC

Input Voltage

DC 48V

Rated power

150W

Luminous flux

17000lm±3%

Illumination distance

50m, 30m

Illumination area

564m², 200m²

Waterproof level

IP54

Working temperature

-20°C~+60°C

CONCENTRATED LIGHT FAST VENTILATION

- 30-degree high concentrated optic lens
- More concentrated lighting illumination
- Patented ventilation design for efficient ventilation
- More efficient heat dissipation

HIGH POWER AND STRONG BRIGHTNESS

- 48V power supply design
- Power up to 150W
- 17000 lm
- Large lighting range

SUPPLY FLEXIBLE POWER EXTRA-LONG LIGHTING HOURS

- Support independent battery
- Support tethered power supply
- Up to 10 hours of illumination

GRIDX
metering and control
