DRONE FLAMETHROWER FT10

TECHNICAL PARAMETERS

Model
FT10
Size
785*128*230mm
Weight
Product 2298±50g
Compatible fuel
75% alcohol
Maximum volume
≤1.5L
Ignition method
High-pressure pulse ignition
Adjustable nozzle angle range
Pitch ±15° Horizontal ±20°
Targeting System
Targeting System
Flaming distance
3 ~ 7m adjustable (no wind)
Supported Drone
DJI M300/350 RTK
Load interface
DJI Skyport
Rated power
40W
Communication link
DJI Drone Link
Minimum Working time
Single continuous operating time≥ 50S

PRECISE REMOVAL OF OBSTACLES

- Laser-assisted targeting
- Rotatable nozzle
- Precision redirection
- High Accuracy

SAFE AND RELIABLE

- Nozzle Valve
- Prevention of dripping problems
- Carbon dioxide for power
- Oxygen-free and safe environment

FLEXIBLE FLAMING

- Gasification high voltage
 arc ignition
- Wind Resistance
- Adjustable pressure system
- 3-7m flaming distance

EASY TO USE AND PRACTICAL

- 3.7kg fully loaded
- Won't block the drone's sensors
- Independent control box
- Dedicated remote control

GRIDX
metering and control
