

# TB30 INTELLIGENT BATTERY

## SPECIFICATIONS

**Capacity:**

5,880 mAh

**Weight:**

Approx. 685 g

**Voltage:**

26.1 V

**Operating Temperature:**

-20 to 50 °C (-4° to 122° F)

## OVERVIEW

The TB30 Intelligent Battery can be self-heated and charged up to 400 cycles. Supports Hot Module Replacement, saving time during critical tasks and ensuring smooth flight operations.

## HIGHLIGHTS

Charges up to 400 cycles and supports Hot Module Replacement.

## TIPS

Storing batteries at high power level can affect battery life. Follow the user manual in the BS30 Intelligent Battery Station.

## COMPATIBILITY

Matrice 30 Series
